**Come and join with your fellow Lions and take part  
in our District wide Service Project to help fight hunger in our communities.**

We will be collecting non-perishable food items at all of our District Cabinet Meetings to help with the growing problem of hunger facing many of our friends and neighbors. We are asking each Lion to bring at least one non-perishable food item to be collected and taken to a nearby shelter for distribution.

If you should happen to forget – not to worry – we will be selling mock food items for you to purchase with the funds generated being donated to the local shelters for the purchase of needed food items. With your help we can help ease some of these ongoing needs.
